

CCTV Surveillance Cameras Policy for the Foundation for Educational Services

Scope

The Foundation for Educational Services (FES) deal with personal data by means of CCTV camera/s and abide by this policy with regards to the data processed by this means. This applies to the FES Head Office and Child Care Centres.

Background Information

The data controller is the Chief Executive Officer of the Foundation for Educational Services.

The data protection officer representing the Head of School may be contacted as follows:

ADDRESS

Data Protection Officer
Foundation for
Educational Services,
Zentrum Business
Centre, Level 1,
Mdina Road, Qormi

Location, Purpose & Retention

CCTV surveillance is installed in the below mentioned FES premises in any of these areas: reception areas, entrances, common areas, and outdoor areas.

For each centre, the relevant retention period, according to the system installed, is being shown below. After the lapse of this period, images are deleted. If data is extracted in relation to unacceptable behavior leading to a criminal investigation it will be held for the period required to satisfy said legal claims, and securely erased after such activities are exhausted.

| Name of Centre | Retention Period |
|---|------------------|
| FES Head Office, Qormi | 7 days |
| Zmeraldi Child Care Centre, Zebbug | 5 days |
| Tghanniqa Child Care Centre, Floriana | 7 days |
| Pizzi Pizzi Kanna Child Care Centre, Naxxar | 8 days |
| Il-Pespus Child Care Centre, Marsa | 7 days |

Affixed notices are placed in prominent and easily visible places within the monitored area. The sole purpose of surveillance is to ensure the security of all those entering the FES premises (students, staff, parents, etc.). Relevant footage will not be used for any other purpose other than the one intended. Processing for a distinct activity that is not compatible with the original reason for which cameras were installed will only be done if prior notice is given to the data subjects.

In view of Chapter II (Article 5) of the GDPR, the Data Controller justifies the use of a CCTV Surveillance Camera system for the above-mentioned purpose. The recognisable images captured by the cameras will be processed adequately, and in a relevant manner and shall be necessary in relation to the purposes of the processing as per Chapter II Article 6 of the GDPR.

Access to Footage & Data

Access to the CCTV footage is restricted to authorised personnel only. The Data Controller shall authorise further access to footage if so required when relevant to the purpose/s specified above.

Any criminal activity caught on camera will be disclosed to law enforcement authorities after filing a Police report.

The FES shall comply with a strict security policy vis-a-vis the access to recorded images. Any internal access to visual images by the FES or any disclosure of such images further to a request by a law enforcement authority or by the data subject shall be logged and kept as evidence.

Right of Access

Any individual whose personal data is held by the FES in the form of CCTV recording, can request access to that recording. The Data Controller is obliged to provide access to the footage without disclosing the identity of third parties.

If an individual is not satisfied with the reply as provided or with the manner of access that has been granted, the matter may be referred to the Information and Data Protection Commissioner who will investigate the case and ascertain that the right of access is properly granted.

Right of access requests shall be made in writing and addressed to the Data Controller.

Conclusion

This policy provides the reasons and means of processing through the use of a CCTV Surveillance System within the FES whilst ensuring that the rights of the data subjects are not infringed, by processing personal data adequately, not more than necessary and making sure that data is not kept for a period longer than necessary in conformity with Data Protection Legislation.
